League International for creditors

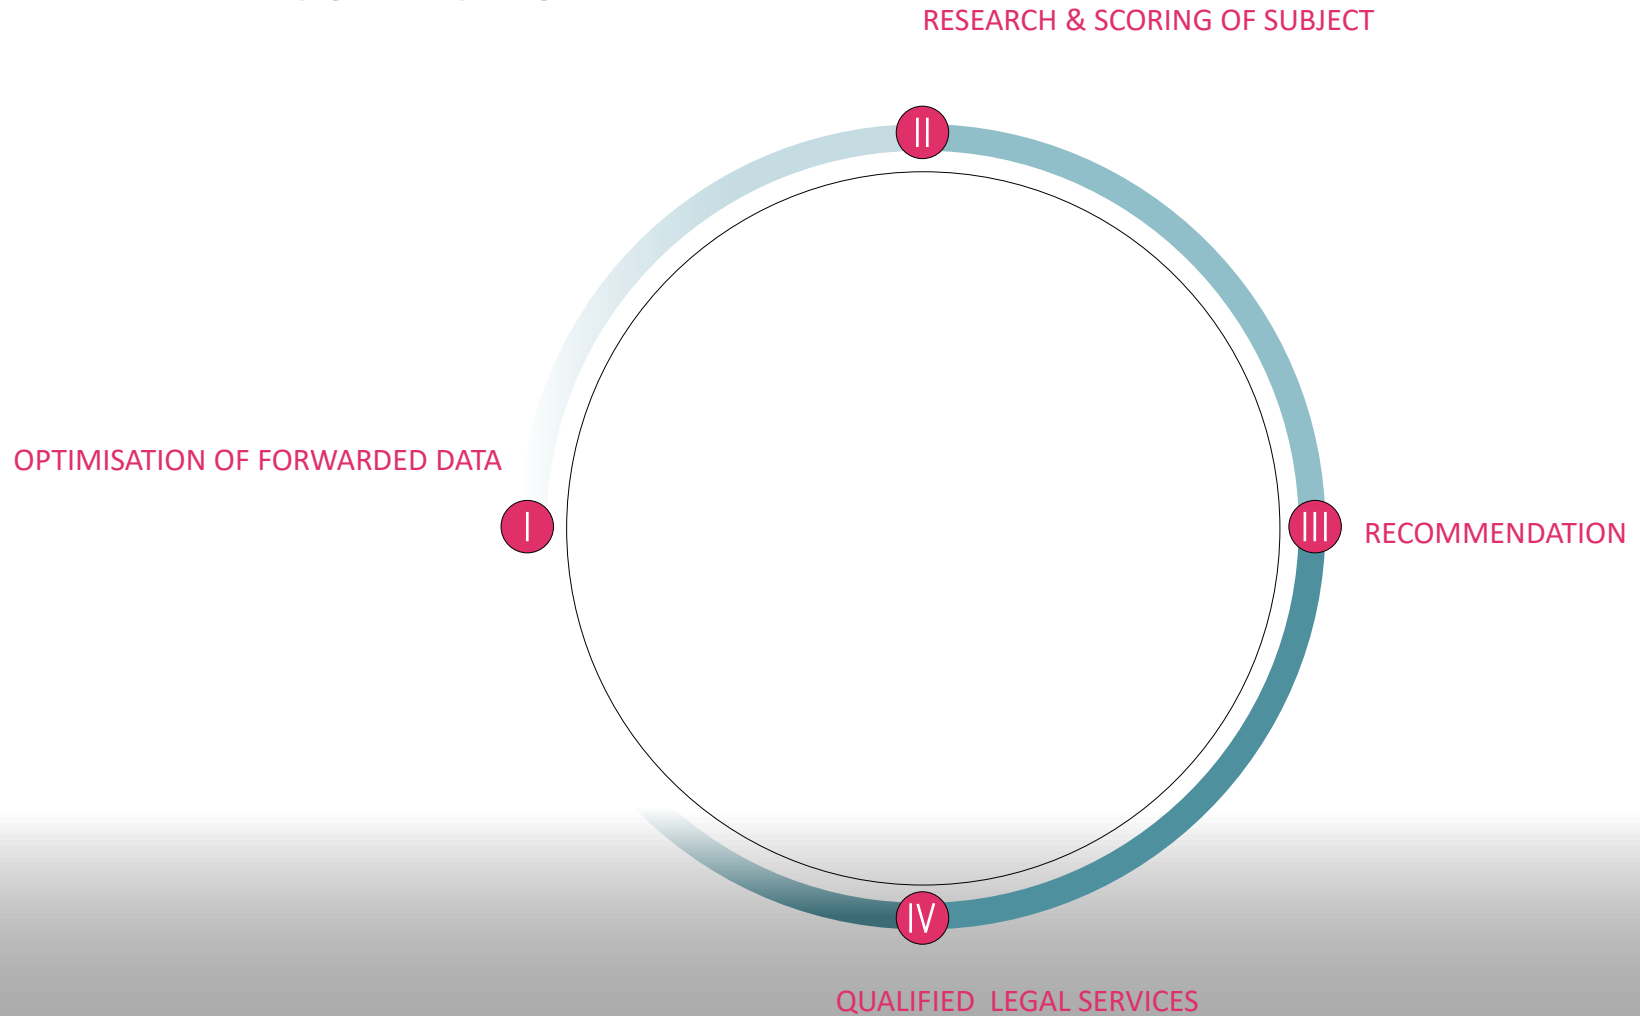

HAPPY TO SAY HELLO!

## HISTORY

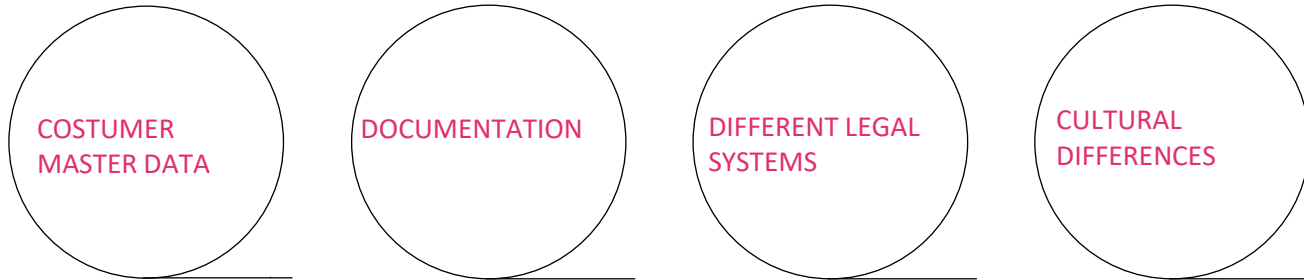

# PARTNER COLLECTION

# FOREIGN CLAIMS ARE UNCOMPLICATED?

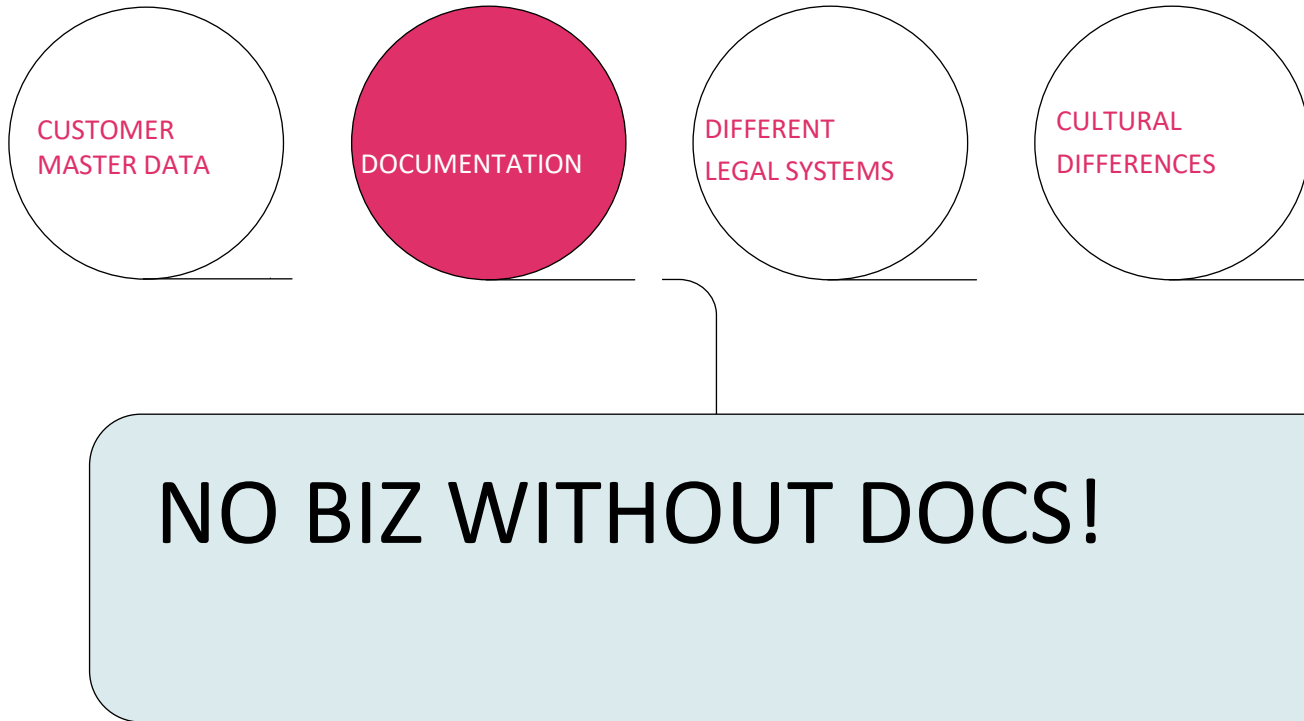

They hide high risks. As experts for international claims we monitor the forwarded debts and we safely lead you and your clients through the traps and pitfalls of German collection process. We know what you need as a collection agency or law office.

**THIS IS WHAT WE PAY ATTENTION TO!**

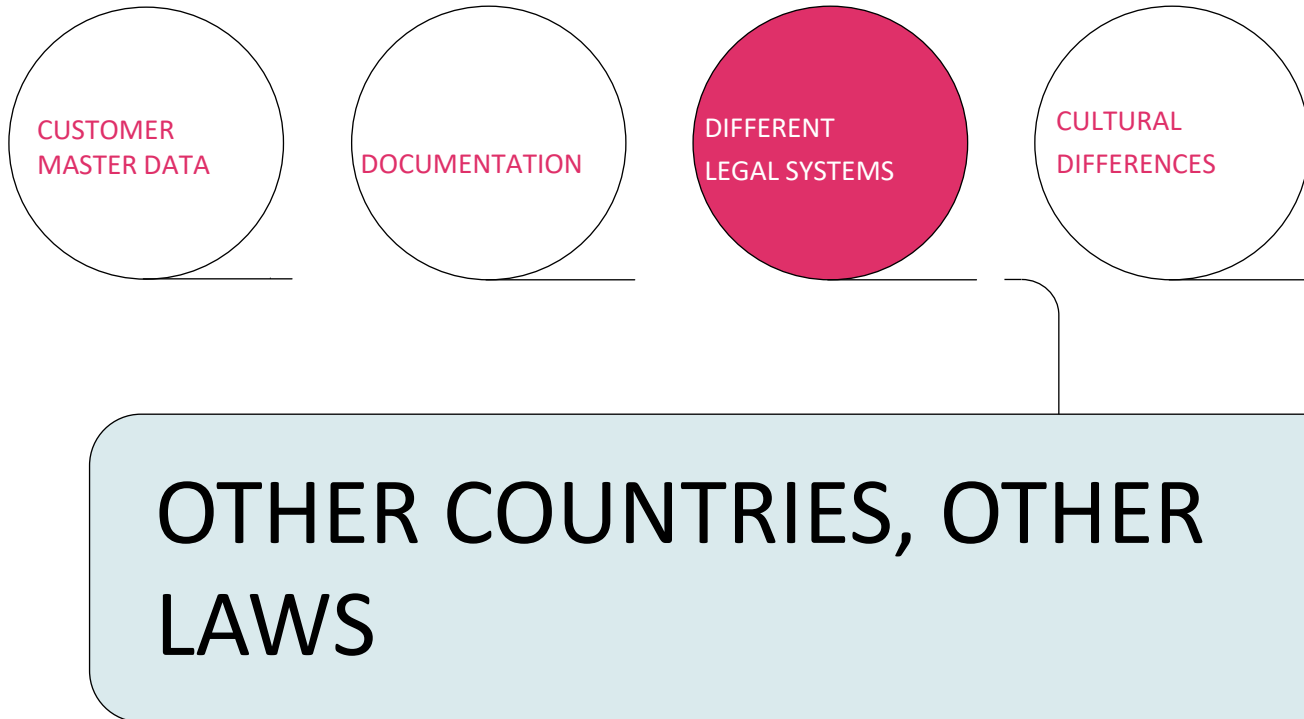

Does your client have the relevant master data of his customers? Is it correct and complete? And are your clients General Terms and Conditions valid and enforceable in Germany?

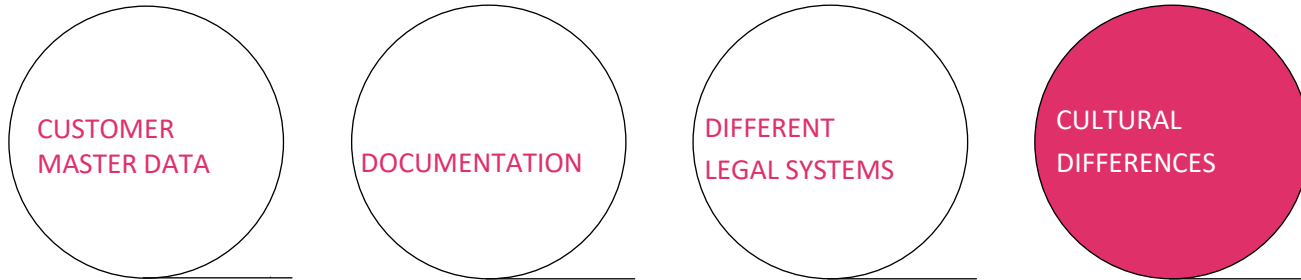

In many legal systems and other countries the clients documentation of the business case is the only thing that counts. We tell you what to watch out for. Your agent, your knowledge. We help.

Your client thinks that German law is comparable to domestic law. Unfortunately, this is not the case. Our broad experience helps your agent recognize stumbling blocks before they can harm your client and you.

## OTHER FOLKS, OTHER STROKES

Why are things run differently in other countries? You need to know your foreign partner's business culture to be successful – or know somebody who does. Like VYNTO, for example.
